Ribbon Ceiling Dimore Collection

Design by Oriano Favaretto
Year: 2021

Purity of lines, quality of materials and minimalism of color. Ribbon lamp combines a simple metal shape with light in a unique way.

The metal frame, declined in opaque black, embraces transparent glass squared slabs like black ribbon wraps white chiffon in a tailor's skilled hands.

The light comes out from the LED strips lying on the special section inside the frame, traveling along it on both sides in order to illuminate both upwards and downwards.

The glass plates bright with unexpected reflections of the light with extreme purity and contemporaneity.
