

# MASIERO

## **Milan Design Week 20-26 April 2026 Masiero Showroom Via Statuto 16 Brera Design District**

### **Serica e Serica Dot 2026 Design Marco Zito**

Serica and Serica Dot comprise a collection of pendant light fixtures with a refined texture, a minimalist reinterpretation of the iconic and recognizable “Nappe” lamps’ motif designed by Marco Zito for Masiero, resulting in a more sublime, essential, and architectural aesthetic.

While keeping the spherical or dome-shaped decorative elements at the top—abstract and contemporary references to the decorative elements of the draperies in the salons of Venetian palaces, details originally from the Nappe collection—the slender, tubular form of Serica and Serica Dot amplifies the lightness of the possible compositions.

### **Serica suspension lamp**

Three decorative elements come together in different lengths, creating an evocative rhythm across the many modular versions (both catalog and custom) and transforming the Nappe ceiling into elegant, suspended light fixtures.

Serica suspension lamp is available in matte black with details in a luxurious brushed finish, as well as in a fully electroplated version.

Five different color variants of the galvanized finish are offered, with shades ranging from a refined champagne, exploring coppery and earthy tones, all the way to dark nickel with an urban allure.

The Serica collection proves to be extremely versatile and adaptable; a ceiling lamps system that, encompassing both single-pendant versions and multi-element compositions—whether predefined or custom—on ceiling roses of various shapes and sizes, offers great compositional freedom, capable of combining the simplicity of the cylindrical form with design details, striking a perfect balance between sophistication and simplicity.

### **Serica Dot suspension lamp**

A compact cylindrical module, featuring five different decorative finishes on the top, embodies the identity of Serica Dot.

Serica Dot ceiling lamp is available in matte black with details in a luxurious brushed finish, or in a fully plated version in five color options, ranging from a sophisticated champagne tone through coppery and earthy shades to a dark nickel finish with a contemporary allure.

Design flexibility is extensive: the collection can be used individually, in predefined compositions with the iconic ceiling mount characteristic of the Nappe series with V-shaped cables, or on ceiling roses of various shapes and sizes.
